

IMPROVEMENT VISION

Respect

Responsibility

Honesty

Students at the centre of everything we do

INTENT

What is our vision?

- To inspire a passion for learning
- To develop curious and resilient problem solvers who work collaboratively in a global context

INQUIRE

What can our school do to enhance learning?

Why is it important for our teaching practice?

- Establish and maintain respectful relationships and partnerships throughout the community
- Make Learning Intentions clear and visible
- Incorporate student voice into task design and assessment for engagement and ownership
- Differentiate the curriculum to support individual needs through high expectations and intellectual stretch
- Provide explicit, timely feedback to improve learning outcomes

IMAGINE

What will this look like?

- Students will be actively engaged in learning experiences
- Students will apply skills and strategies, making connections across varied contexts

IMPLEMENT

How will our school do this?

- Work collaboratively in professional learning communities to plan effective task design and assessment
- On-going reflections and professional discussions
- Targeted training and development
- Transparent practices

INFORM

How will we know we are successful?

- Students can explain their own learning
- Stakeholder feedback
- Students are asking questions and finding solutions
- Growth mindset evident
- Students are applying skills and knowledge beyond the classroom

IMPROVE

What comes next?

- Reflect on our journey to identify areas to improve
- Review professional practices of teaching and learning
